The Pennsylvania Governor's Office of Homeland Security is hosting four virtual **Crowd Manager Workshops**, presented by retired Lt. Colonel Hal Kempfer, "Hal", Global Risk Intelligence & Planning (GRIP) Inc.

With close to two decades as the founder and CEO of two dynamic consulting and training firms focused on strategic risk, intelligence, planning and all-hazards/all threats security, Mr. Kempfer represents unique talent along with his firm; having an exceptional array of subject matter expertise. A retired Marine intelligence officer with 24 years of service, much of it in the civil-military realm, having been the senior intelligence officer for service, joint and coalition commands.

Virtual Crowd Manager Training is a fast-paced 90-minute seminar designed for those positions needed at large assembly events. This workshop is valuable to those critically important positions at mass gathering venues.

COURSE OBJECTIVES

- Understand lessons learned from emergency case studies.
- Understand the movement scenarios of crowds and the crowd manager's role.
- Understand the crowd manager role in an active shooter scenario.
- Understand the crowd manager role in fire safety, gas leak, flood and power outage scenarios.
- Understand the checklist of key items to be reviewed in a crowd event.
- Understand the components of the acronym ESCAPE (Exits, Storage, Capacity, Aisles, Protection, Emergency).
- Understand the Fusion Center model and concept.
